

LONGVIEW, Washington, Aug. 7.—Sixteen years ago when he was 71 years old, R. A. Long, of Kansas City, decided that this Pacific Coast needed another city. He built it here at the mouth of the Columbia River, where ships come to take him home all over the world. There are 15,000 people here, a monthly payroll of \$500,000, and 28 industries, in addition to lumber. Long's mill turns out 2,000,000 board feet of lumber a day; the Warburton mill 1,200,000. When you drive along this Pacific Coast 1,500 miles or more, he says to drop here. To enjoy themselves, they put on lumberjack costumes, overalls, boots, bright red hats, wear men in the woods, and sing.

Britain Confers Home Rule Measure on People of Egypt—Troops to Leave

SOLDIERS WILL BE WITHDRAWN TO CANAL ZONE

New Anglo-Egyptian Draft Treaty Makes Most Important Concessions

Associated Press Cable
LONDON, Aug. 7.—British military occupation of Egypt, except for the Canal Zone, is abandoned and other important and far-reaching concessions agreed to in the new Anglo-Egyptian draft treaty, details of which are issued from Downing Street by the Foreign Office.

Mark Advance
The proposals are a great advance on anything hitherto offered as settlement of the Anglo-Egyptian problem, being more favorable than the draft treaty of 1922 which was rejected by the Egyptian parliament under the influence of the followers of the Nationalist leader Zakiul Kader.

The agreement, which Right Hon. Arthur Henderson, foreign secretary, has negotiated with the Egyptian minister in a general way follows the lines of the abortive treaty of two years ago, but makes important concessions to Egypt.

The British occupation will cease and British troops will be withdrawn to the Canal Zone.

Key to League?
The British occupation will use its influence to induce other powers to consent to the abolition of the capitulations of extra-territorial rights and will assist Egypt to become a member of the League of Nations.

Further, Great Britain recognizes that the position of foreigners in Egypt is a matter involving solely upon the Egyptian government.

The treaty of 1922 will give Egypt a greater measure of real independence than ever before proposed.

Thus the British Empire General of the Egyptian army will cease to function completely and all British personnel will be withdrawn from the Egyptian forces.

Similar concessions in other respects are foreshadowed in the notes exchanged. For instance Egypt renounces the right to exercise Egyptian officials in various advisory capacities where British officials hitherto were employed.

The most important concession on Great Britain's part is the withdrawal of British garrisons to the Canal zone. This was returned in the negotiations with General Paoli two years ago. Sir Austen Chamberlain, then secretary of state for foreign affairs, held out this as a possibility ten years hence. Mr. Henderson is a man to his word.

C.N.R. CANNOT MAKE APPEAL ON NEW RATE

18.34 Cents Is Freight on Grain From Lakes to Quebec

OTTAWA, Aug. 7.—Application of the Canadian National railway for leave to appeal to the supreme court against the 18.34 cent grain rate from the lakes to the Quebec City, has been refused by the board of railway commissioners, in a judgment made public Tuesday.

The board of the board from which the railway sought to appeal was dated August 10, 1927, and disallowed the then existing rate of 34.1 cents per one hundred pounds on wheat and 31 cents per one hundred pounds on other grain for export from Port Arthur, Port William, West Port and Armstrong, Ontario, to Quebec City. It directed the Canadian National railway company to publish and file in substitution therefor, a tariff showing a rate of 18.34 cents.

The judgment of Hon. A. McKeown, which was made public Tuesday, was based primarily for the purpose of ruling on the appeal of the Canadian National railway. The board took into account the public expenditure of \$250,000,000 on the road in arriving at what it regarded as reasonable rate.

The railway company contended that the board had made an error in law in taking the agreement of July 29, 1928, and the Crown's best agreement into consideration. When the application was before the board two months ago, the chief opposition to the railway's contention came from the province of Quebec, while other provinces also added their protest against an increase in rates. It was in 1927 that two years had elapsed since the last rate had been made in Quebec and the Maritime in connection with tariff and other facilities. Rights had been created, it was claimed, which could not now be ignored.

Application was for leave to appeal on grounds of law and jurisdiction.

PLAN TO BRING 10,000 BOYS AND GIRLS OUT

London Councillor Outlines Proposal to Populate Canada

Canadian Press
MONTREAL, Aug. 7.—A scheme whereby 10,000 English children would be brought to Canada every year, after being educated and trained for farming life and on which the London City Council would probably measure itself soon, was outlined by Lieut.-Col. John Dodge, member of the London City Council here.

"The greatest obstacle to the immigration of British young men and women into Canada," said Col. Dodge, "is that they are not familiar with local conditions and are in a financial position to pay the expenses of the trip and of their establishment here."

The plan, he said, was to have the London City Council can be summarized as follows: Every year the council would lay aside a sum of \$125,000, which it would offer to any individual willing to finance the project.

"As for the fathers of these children," he said, "I have advocated that the London County Council instead of paying for the unemployed, should offer to help them financially to immigrate to Canada, where farms would be bought for them, after they have qualified as colonists."

New To Fairs
OTTAWA, Aug. 7.—The Dodge plan, whereby 10,000 English children to be brought to Canada annually, has not yet been referred to the Hon. Robert Borden, minister of immigration. Questioned regarding this plan, he said that the London City Council by Lieut.-Col. John Dodge, Mr. Borden said that it was really new to him.

BLAME SLEUTH FOR DEATH OF OLD GRID STAR

Vancouver Coroner's Jury Returns Verdict That Detective Shot D. Spence

Canadian Press
VANCOUVER, B.C., Aug. 7.—A coroner's jury Tuesday returned a verdict that David Spence had been shot to death from a gunshot wound from a revolver in the hands of Alexander Kirkwood, hence, aged 45, a well known former political figure, who is the proprietor of a private detective agency here. Kirkwood is at present held by the police on a murder charge.

Herbert Hovard, an employee of Kirkwood, who was with him at the time of the shooting, said that Kirkwood was under the impression that it was a matter of a hold-up when Spence was shot.

"He shot," Hovard said, "and I will take him to the police station before the detective left the car in which he was being taken."

Hovard said Spence had walked up to him in the car and said about \$10,000 was waiting for him. Hovard said he was afraid to have a gun. He then handed away and Kirkwood followed Kirkwood ordered Spence to get into the car and said that he was a detective and had a revolver.

Good Looking because Good Business
Demands Style as Well as Close Economy

Good retail selling today demands attractive store fronts and inviting displays of merchandise. And good business on the part of truck users demands trucks which by their good appearance build prestige and good-will for the man or company operating them.

That is why General Motors Trucks are the best-looking trucks in the world. That is why, in the great General Motors plants at Walkerville, General Motors Truck chassis and bodies are being engineered and built as a unit with all the harmony of line, all the freshness of color, all the quality of upholstery and interior fittings that you have heretofore associated only with passenger cars.

In making them the trim, attractive trucks that they are, engineers have sacrificed none of the ruggedness, power or dependability for which General Motors Trucks have long been famous. The remarkable economy responsible for their unrivaled popularity among Canadian business houses remains their chief characteristic.

But along with this economy you can now obtain the good appearance which good business demands—and the added prestige and advertising value which good appearance assures.

Wealthy Men Own Life Insurance

THE richer a man is, the less likely is he to have a large amount of ready money available. Within the last few years, several large estates have had to be broken up in order to raise money to pay succession duties.

Insurance to meet succession duties has become a very active part of our business—and we have trained men to advise those to whom succession duties are a serious consideration. Policies may be made payable to the Provincial Treasurer, for the purpose of paying succession duties.

Upon request a competent representative will be sent to discuss this form of insurance with you.
